

REVERSO

BE CREATIVE

A unique concept...

- Patented adjustable seat
- Seat and a backrest made of pure high-density 100% polypropylene copolymer for high resistance to shocks
- Mass dyed plastic components, improved anti-UV performance
- Smooth and bright aspect
- Improved seat and backrest with internal structural partitioning
- A honeycomb fibreglass seat support structure
- Galvanized steel or polyester coating metallic support
- Adjustable by means of a stainless steel spring system
- Installation on console, metallic base or rail (optional)
- Adhesive numbering on the top of the backrest
- Low width and depth volume
- Matching FIFA - UEFA specifications

- **Outdoor use:** advanced anti-UV treatment, 5-year warranty against colour fading.
- **Indoor use:** fire rating in accordance with the regulations of every country.
- **Optional:** anti-UV treatment with a flame retardant – 3-year warranty against colour fading.

THE ULTIMATE PERSONALISATION

- The Reverso design offers up to **4 different colours for every seat**.
- During promotional or sponsoring events, a **high-resolution logo** can be displayed on the seat covers as well as behind the seat, for that extra touch of personalisation.
